DETAILED ACTION

Response to Amendments and Arguments

1. Applicant's rewritten claim 1 to incorporate claim 2 in independent form including all the limitations of the base claim and any intervening claims filed 5/23/2006 have been fully considered and they are persuasive. Claim 2 has been canceled.

Allowable Subject Matter

1. Claims 1 and 3-12 are allowable over the prior of records.
2. The following is an Examiner's statement of reasons for the indication of allowable subject matter: Regarding claims 1 and 3, the allowability, at least in part, resides in a method for managing product output, used to connect work partners at different locations of an enterprise through a network to a system for managing product output, wherein the managing system allows the enterprise to control distribution of performances and profits, fails to teach in part at least searching via the managing system in the order database for order data corresponding in third party identification number to the deleted manufacture data, and deleting the searched order data, for being used as reference of product output for the first work partner. Regarding claim 9, the allowability, at least in part, resides in a system for managing product output, connected to work partners at different locations of an enterprise through a network, for allowing the enterprise to control distribution of performances and profits, fails to teach in part at least an output module prompted by the analysis module to retrieve manufacture data from the manufacture database corresponding to a request for

inputting an output message from the second work partner, wherein the retrieved manufacture data correspond to the output message in product category code, output quantity, output time, client and manufactory; and the output module for deleting the retrieved manufacture data, and retrieving corresponding order data from the order database according to the deleted manufacture data, so as to delete the retrieved order data, for being used as reference of product output for the first work partner.

3. Claims 4-8, and 10-12 are allowed for the same reasons above.
